Unleashing the Power of Information

## Corporate Capabilities Statement

Collective Intelligence, Inc is a leading systems integrator and solutions provider delivering superior value-priced services for both private and government sector clients.

Our services are offered on a project or strategic staffing basis, in both custom and packaged software environments across all technology platforms, operating systems and infrastructures.

We offer enterprise solutions for portals, service oriented architectures, customer relationship management systems, and professional analysis and design services.

Collective Intelligence's primary strength is our focus on building, integrating and supporting your mission critical business applications and systems. We deliver solutions that help you achieve your business objectives. Our integrated offerings, blended with best-of-breed tools, standardized processes and skilled resources, enable a consolidated, comprehensive approach for supporting your critical applications and systems.

Whatever your objectives, Collective Intelligence has the knowledge and expertise to support you throughout your project's lifecycle. Our solutions provide you with optimized quality, enhanced business value, faster time-to-market and reduced total cost of ownership.

## Solutions

Collective Intelligence's primary strength is our focused specialization in building, integrating and supporting mission-critical business applications and business systems that will help you achieve your business objectives. Our integrated solutions blended with our best-of-breed tools, standardized processes and skilled resources enable us to deliver what we promised on time and within budget. Today our bundled Enterprise Solutions encompass: Business Intelligence, Customer Relationship Management, Systems Integration, Web Services Infrastructure and the Enterprise Web Portal.
