

Management Team

Charles Russell

Senior Partner

A veteran of over twenty years in the computer industry, Mr. Russell focuses upon Object Oriented and Data Driven methodologies, Business Process Modeling, Computer Aided Systems Engineering (CASE), Business Intelligence and Data Warehouse/Data Mart implementation. He has taught, written and consulted extensively on each of these topics. More recently, Mr. Russell has focused on large distributed systems development; acting as project manager, lead architect and developer on several commercial software products.

Mr. Russell has taught Object Oriented Analysis and Design, System Architecture, the Java language, JAD Facilitation, Data Modeling and the Information Engineering methodology. He has spoken at several information technology seminars and is currently engaged with several large clients working on Internet related software projects written in Java and Oracle technologies. Mr. Russell's work has been published in several leading publications and is the author of the Symmetry Systems Development Method.

Daren Stonesifer

Senior Partner

Daren Stonesifer is a Senior Partner with Collective Intelligence Incorporated. Mr. Stonesifer has over twenty years of IT industry experience. Daren specializes in Object Oriented Software Development and eBusiness Application Development. Daren has a deep understanding of information system architectures, methodologies, and distributed object-oriented component technologies. Daren has worked with a myriad of different systems, networks, and architectures including J2EE, CORBA, IBM SNA Communications, JCL, low-level communications drivers, PLC's, MQ-Series, Microsoft COM+, SAP iDoc, Java RMI, JSP, XML.

Mr. Stonesifer has strong project management, analytical, design and programming skills. He has held the position of practically every role of IT including developer, analyst, project leader, project manager, and program manager. His current duties include operations and financial management at CI and program management for client projects.

Capabilities: Design & Implementation

Service Oriented Architectures

- Business Process Orchestration
- Sales Force Automation
- Marketing Campaigns
- Performance Dashboards
- Customizations

Customer Relationship Management

- Integration to existing systems
- Sales Force Automation
- Marketing Campaigns
- Performance Dashboards
- Customizations

System Integration (SI)

- Integrating with Service Oriented Architectures
- Integrating with Web Services
- Integration through ETL tools
- Integration through data

Portals

- Requirements Analysis
- Taxonomy Design
- Graphics
- Portlets
- Connections to SOA

Business Intelligence

- Requirements Analysis
- Data Warehouse
- Reporting Solutions
- Data Transformations
- Dashboards
- Metrics
